

Northern and Eastern Caribbean 2012 Travel & Aviation Chart

WAC Scale 1:1,000,000

Longitude: 4-3/8" = 60nm = 1° 60' • Latitude: 4-3/8" at Equator only

Effective November 15, 2011, This chart will become obsolete for use in navigation upon publication of the next edition scheduled for November 15, 2012. Published with data compiled from NOAA, DDD & NHMA data, and from the Pilot's Guide and input from additional Caribbean sources. This chart should be used in conjunction with US charts when available and GPS databases for reference and planning purposes. This is a reference and planning chart and is not to be substituted for legal charts. It is intended to be used with a GPS. We don't recommend using land based signals like VORs or NDBs except in an emergency.
